# FULL SPECTRUM LOGISTICS AUTOMATION

Efficient / Safe / Flexible

VisionNav  
Robotics

# VisionNav Robotics

## A LEADING GLOBAL SUPPLIER OF AUTONOMOUS INDUSTRIAL VEHICLES AND LOGISTICS AUTOMATION SOLUTIONS

VisionNav® Robotics is a global leader in autonomous industrial vehicles (AMRs/AGVs) and logistics automation solutions. Utilizing deep learning, environment perception, and servo control technologies, VisionNav has developed nine product series to address full-stack material handling scenarios. With over 750 projects deployed across more than 30 countries, VisionNav is trusted by numerous Fortune 500 companies in industries such as automotive, food and beverage, chemical, pharmaceutical, and 3PL, enhancing operational safety, efficiency, and future readiness.

### Advantages

#### Excellent Logistics Robot Performance

Stable, flexible, safe and efficient.

#### Business-Driven Solution

Seamlessly embedded in customer business processes.

#### Cutting-edge Technology

Adopting the leading-edge technology to deal with critical challenges.

#### Stable Supply Chain and Professional Services

Stable supply chain, professional team, fast work order response and 100% turn-key delivery.

## MISSION

To meet the challenges of labor shortages and improve the working practices of more than 20 million workers around the world with advanced autonomous vehicles that accomplish repetitive, high-risk, and high-intensity work.

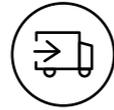

# COMPREHENSIVE APPLICATION ACROSS ALL MATERIAL HANDLING SCENARIOS

Flexible logistics automation solution covering the full range of intralogistics scenarios, managing diverse goods in manufacturing and logistics industries.

## Ground-Ground Transportation

Adapted to standard carriers, non-standard carriers and non-carriers for automated material transfer.

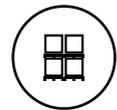

## Trailer loading and unloading

Accurately matches various types of trucks, enabling a highly automated, closed-loop logistics process.

## High Bay Racking

Combining with factors such as material specifications, rack types, and storage layout, it can break through the 11m high bay storage and retrieval.

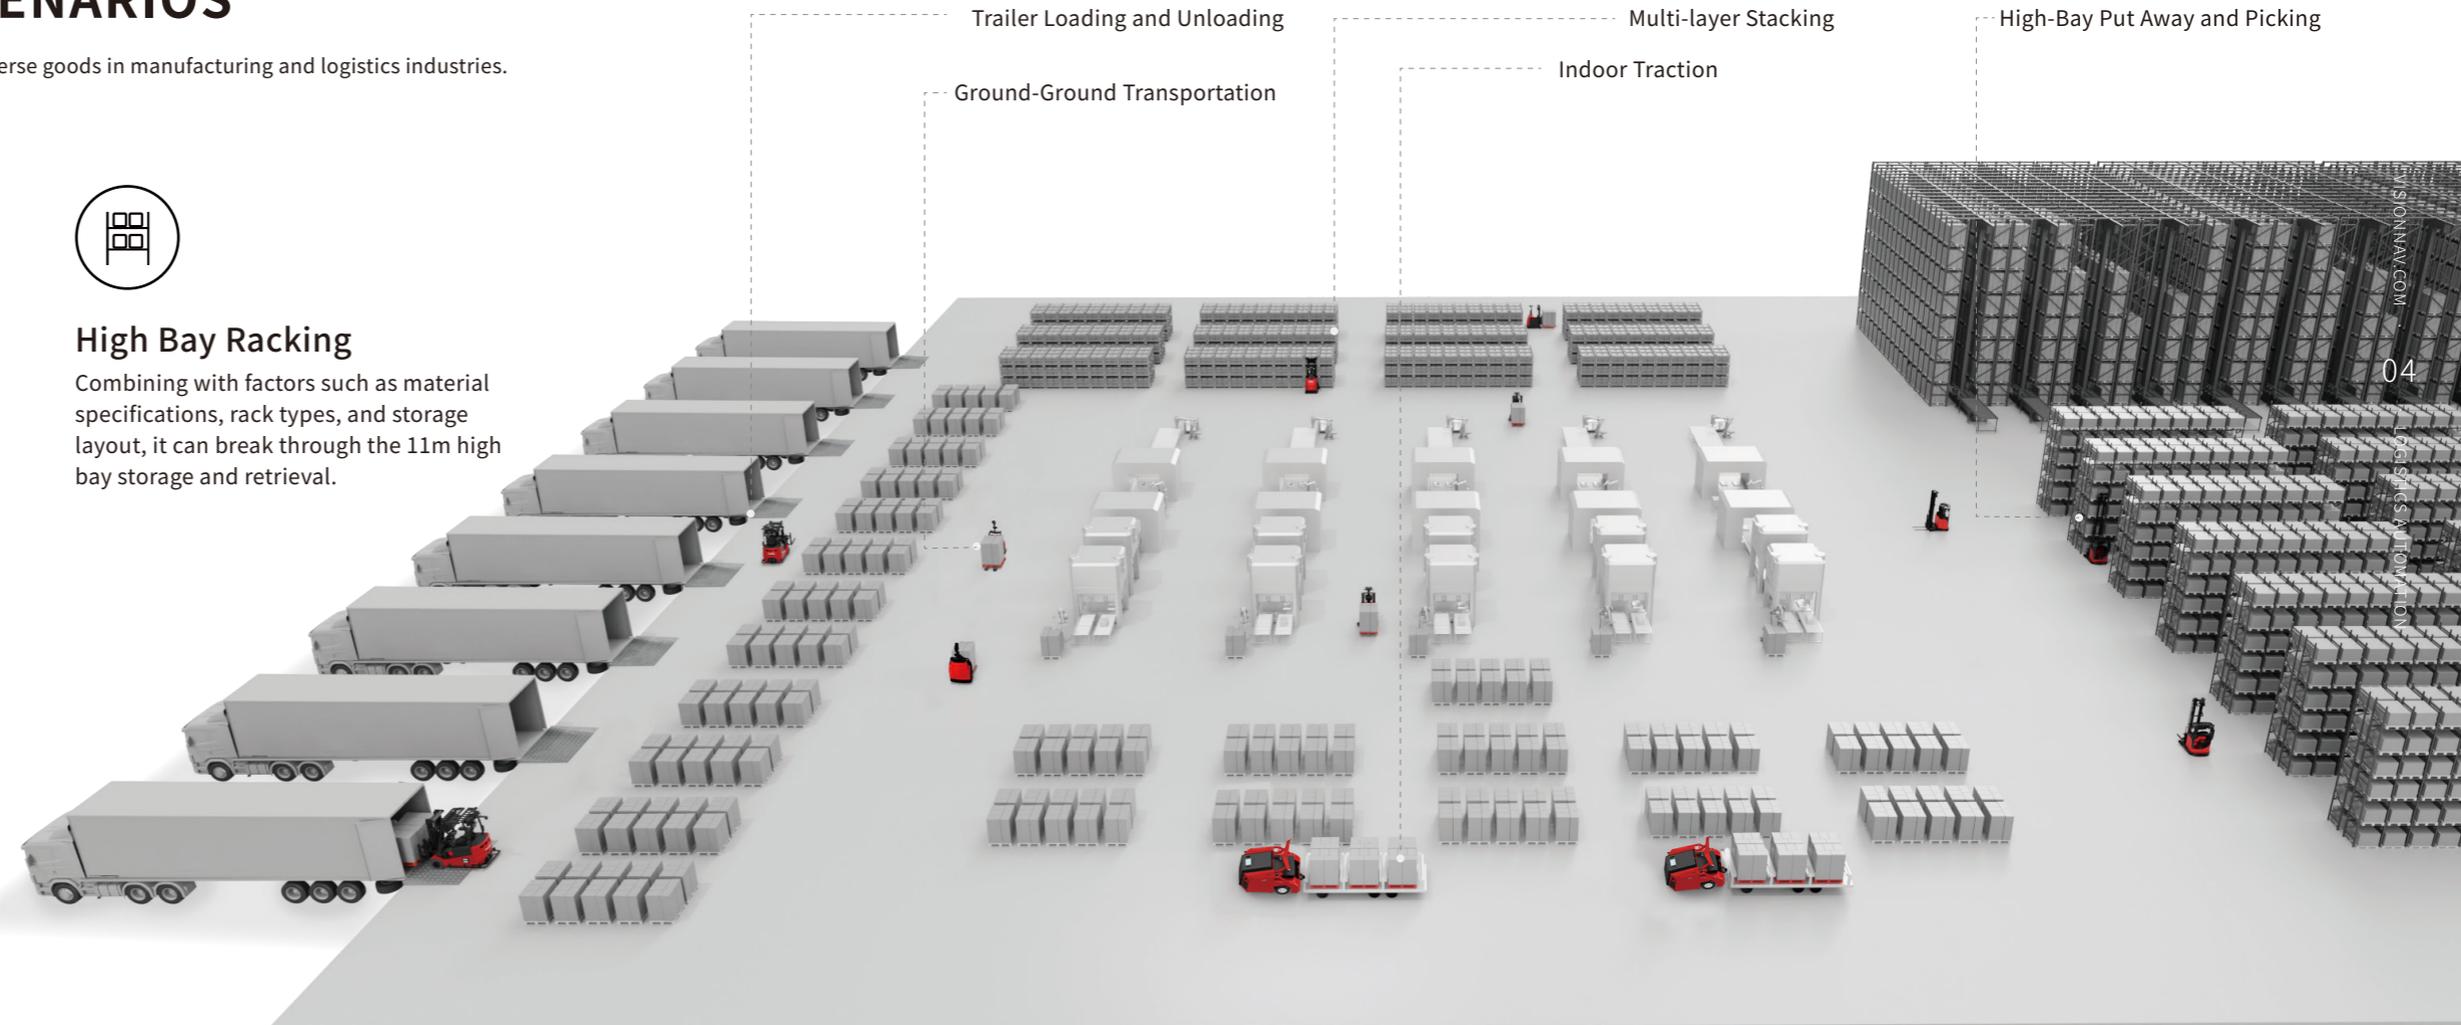

## Stacking

Integrates "vision + 3D laser" positioning and perception technologies to enable precise stacking of goods in over six layers.

## Indoor Traction

Integrates high-precision navigation, positioning, and perception technology to adapt flexibly to complex indoor environments.

# SERVICES NETWORK

Sales, Operations, and Services in 30+ Countries and Regions.

## Training & Certification

- Training service for product use
- Certification of vehicle operator training

## 24 / 7 Help Desk

- Email: [Service@int.visionnav.com](mailto:Service@int.visionnav.com)
- Phone: +1-888-666-6190
- Teams: VisionNav Robotics Helpdesk

## Maintenance

- Replacing Spare Parts Service
- Maintenance Package
- System Technical Support And Upgrade

## Global Spare Parts Center

- Spare parts center: global multi-point coverage, 100% long-term stock
- Wearable and critical parts: recommended for purchase by users

● Branch Company    
 ● Service Partner /Service Station    
 ● Spare Parts Center

# SOLUTION ARCHITECTURE

# APPLICATIONS

VisionNav Robotics is trusted by leading companies across various industries for its operational efficiency, accuracy, adaptability to diverse scenarios, and safety. VisionNav products are widely utilized in sectors such as Automotive, FMCG, pharmaceuticals, 3PL, and more.

## Manufacturing

- Food & Beverage
- FMCG
- Electrical products
- Automotive
- Chemical
- Packaging
- Pharmaceutical
- Metal products
- Machinery
- Apparel & Shoes
- Textile Products
- Furniture and Related
- Construction

## Logistics

- 3PL
- Wholesale & Retail

# SOFTWARE: FLEET MANAGEMENT SYSTEM

Fleet Management System is a visualized intelligent scheduling platform designed to manage communication and tasks for up to 150 AGVs/AMRs. It enables multi-vehicle scheduling, path planning, collision avoidance, task management, and data analysis in large-scale operations. Utilizing cloud-based scheduling, the system ensures efficient, flexible, and stable performance. Integrated with MES/WMS/ERP systems via VDA 5050 protocol and coordinated with advanced positioning modules, it provides customers with a comprehensive and collaborative solution for industrial vehicle management.

Multiple Devices Polling

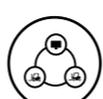

Docking with management systems (WMS/WCS/MES)

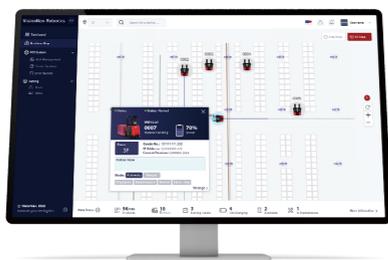

Schedule robots and tasks

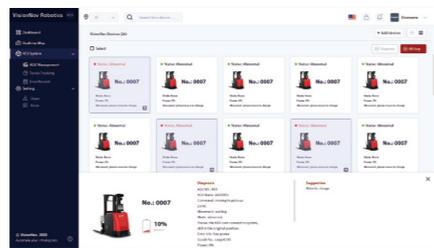

Quick view of devices status

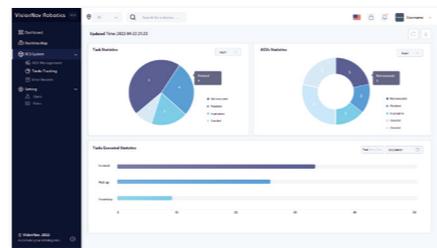

VDA 5050 protocol

Real-Time Map

Task Management

Dash Board

# HARDWARE: AUTONOMOUS INDUSTRIAL VEHICLES

**Safety**

- Strictly complied with international safety design standards, utilise dual-system control and 5 level safety protection with real-time risk warning.

## Positioning Module

- High flexibility: Real-time map generation
- High accuracy: up to  $\pm 10\text{mm}$  indoors
- High scene adaptability (indoor & outdoor)

## Perception Module

- 3D accurate detection of 6 degrees of freedom position and angle of the target goods with accuracy up to  $\pm 10\text{mm}$ ,  $\pm 0.5^\circ$

## Motivation Module

- Adaptive control: high precision, variable load Partial autonomous planning to enhance vehicle flexibility Ultimate space utilization.

# VNSL14(VL)-07 SLIM PALLET JACK AGV/AMR

With the 3D local-SLAM positioning and perception modules on slim-shaped pallet stackers, the implementation period is shortened, and reliability is improved. The vehicle features customizable forks and supporting legs tailored to various scenarios, providing exceptional flexibility and adaptability.

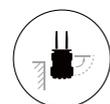

**Notice:** Specifications are provided for reference only and may change as part of continuous product improvement.

## VNSL14(VL)-07 Fundamental Technical Parameters

Body Weight	2200 lb (1000kg)	Type of Operation	Automatic / Manual Handheld
Rated Load Capacity	3000 lb (1400kg)	Battery Type	Lithium iron phosphate battery (LiFePO <sub>4</sub> )
Vehicle Dimensions	65x40x85in (1650x1000x2150 mm)	Voltage/Capacity	24V/180Ah
Fork Dimensions	45.3x7.1x2.5in (1150x180x60mm)	Charging Mode	Manual/ Automatic Charging
Optional Fork Lengths	49.2x53.x57.1in (1250/1350/1450mm)	Min. Stacking Aisle Width	87in (2200mm)
Fork Lifting Height	Up to 118in (3000mm)	Min. Turning Aisle Width	71in (1800mm)
Width Across Forks	22.1 / 26.8in (560/680mm)	Ambient Temperature	-5°C ~ 40°C
Width Inside Straddle	7.9 / 12.6in (200/320mm)	Ambient Humidity	20% ~ 95%
Positioning Method	3D SLAM-based	Ground Flatness	±0.20in/m <sup>2</sup> (±5mm/m <sup>2</sup> )
Perception Method	3D Scanning-based	Max. Climbing Ability (Loaded/Empty)	5%, 5% (3°, 3°)
Localization Precision	±0.39in/±0.5° (±10mm/±0.5°)	Max. Gap Width	1.18in (30mm)
Goods Pick-up Self-adaptability	±3.94in/±10° (±100mm/±10°)	Max. Obstacle Height	0.39in (10mm)
Load Center Distance	24in (600mm)	Front Safety Protection	Laser Scanner Protection + Anti-Collision Bumper
Min. Turning Radius	47in (1173mm)	Rear Safety Protection	Laser Scanner Protection + Non-Contact Sensor
Detecting height of the safety laser	3.9in (100mm)	Top Safety Protection	3D Laser Scanner Protection
Straight Forward Speed (Loaded/Empty)	2.24mph , 2.91mph (1.0m/s, 1.3m/s)	Side Safety Protection	Laser Scanner Protection + Anti-Collision Bumper
Straight Backward Speed (Loaded/Empty)	0.67mph , 0.67mph (0.3m/s, 0.3m/s)	Other Safety Protection	Emergency Stop Button + Acousto-Optic Alarm
Forward Turning Speed (Loaded/Empty)	0.67mph , 1.34mph (0.3m/s, 0.6m/s)	* 1.Performance Specifications: Specifications are based on the model equipped with a 63 in (1600 mm) duplex mast, a 1219x1016mm load size, and with across forks on width. 2.Fork Accessories: Customizable fork length, fork width, and supporting legs width. 3.Optional Accessories: Cargo Overheight Detection, UWB Kit, Bar Code Scanner, RFID Reader, Dashcam, among others. 4.Load Capacity variation: Optional masts, longer load dimensions or higher lifting heights may result in a derating of capacity.	
Backward Turning Speed (Loaded/Empty)	0.67mph , 0.67mph (0.3m/s, 0.3m/s)		
Lifting Up Speed (Loaded/Empty)	0.26mph , 0.39mph (115mm/s, 175mm/s)		
Lifting Down Speed (Loaded/Empty)	0.36mph , 0.28mph (160mm/s, 125mm/s)		

# VNST20(VL)-66 PLUS SLIM PALLET JACK AGV/AMR

Designed for efficient truck loading, unloading, and fast handling, this forklift is equipped with 3D local-SLAM positioning and perception modules on slim-shaped pallet jack, which shortens the implementation period and enhances reliability. The vehicle also features customizable forks and supporting legs, tailored to various scenarios, offering exceptional flexibility and adaptability.

**Notice:** Specifications are provided for reference only and may change as part of continuous product improvement.

Perception Method	3D LIDAR-based	Max. Climbing Ability (Loaded/Empty)	5%, 5% (3°, 3°)
Localization Precision	±0.31in/±1° (±8mm/±1°)	Max. Gap Width	1.18in (30mm)
Goods Pick-up Self-adaptability	±3.94in/±10° (±100mm/±10°)	Max. Obstacle Height	0.39in (10mm)
Load Center Distance	23.6in (600mm)	Front Safety Protection	Laser Scanner Protection + Anti-Collision Bumper
Min. Turning Radius	56in (1430mm)	Rear Safety Protection	Laser Scanner Protection + Non-Contact Sensor
Detecting height of the safety laser	3.5in (82mm)	Top Safety Protection	3D Laser Scanner Protection
Straight Forward Speed (Loaded/Empty)	3.13mph, 4.03mph (1.4m/s, 1.8m/s)	Side Safety Protection	Laser Scanner Protection + Anti-Collision Bumper
Straight Backward Speed (Loaded/Empty)	0.67mph, 0.67mph (0.3m/s, 0.3m/s)	Other Safety Protection	Emergency Stop Button + Acousto-Optic Alarm
Forward Turning Speed (Loaded/Empty)	0.67mph, 1.34mph (0.3m/s, 0.6m/s)	* 1.Performance Specifications: Specifications are based on the model with a 1219x1016mm load, and across forks on width. 2.Fork Accessories: Customizable fork length, fork width. 3.Optional Accessories: UWB Kit, Bar Code Scanner, RFID Reader, Dashcam, among others.	
Backward Turning Speed (Loaded/Empty)	0.67mph, 0.67mph (0.3m/s, 0.3m/s)		
Lifting Up Time (Loaded/Empty)	3.2s, 1.8s		
Lifting Down Time (Loaded/Empty)	1.9s, 2.7s		

# VNP15(VL)-66 COUNTERBALANCE STACKER AGV/AMR

Designed for modern logistics operations, the VNP15 combines advanced 3D SLAM navigation with intelligent perception to enable fast deployment and stable autonomous performance. Comprehensive 360° safety protection and configurable forks and clamps allow it to handle diverse material-handling tasks with exceptional flexibility, reliability, and efficiency.

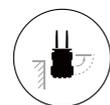

**Notice:** Specifications are provided for reference only and may change as part of continuous product improvement.

# VNR SERIES REACH TRUCK AGV/AMR

The combination of the Vision-based positioning module and 3D laser perception module enhances accuracy across various aspects, including vehicle positioning, goods picking, and put-away. The VNR series features 360-degree laser safety protection along with mechanical safeguards, making it ideal for high-bay racking.

Body Weight	6900lb (3140kg)	7000lb (3190kg)	7600lb (3460kg)	Side Shift Range	±3.15in (±80mm)		
Rated Load Capacity	3100lb (1400kg)	3500lb (1600kg)	4400lb (2000kg)	Type of Operation	Automatic / Manual Seated		
Reach Retracts Dimensions	104x65x98in (2650x1640x2480mm)	104x64x98in (2650x1640x2480mm)	105x64x135in (2670x1640x3430mm)	Battery Type	Lithium iron phosphate battery (LiFePO <sub>4</sub> )		
Reach Extends Dimensions	121x65x98in (3080x1640x2480mm)	125x65x98in (3185x1640x2480mm)	130x64x135in (3295x1635x3430mm)	Voltage/Capacity	48V/400Ah		
Fork Dimensions	41x4x1.8in (1115x100x45mm)			Charging Mode	Manual/ Automatic Charging		
Optional Fork Lengths	50/54/58/62in (1260/1360/1460/1560 mm)			Supporting Legs Height	13.4in (310mm)	373mm (373mm)	
Fork Lifting Height	Up to 335in (8500mm)	Up to 450in (11400mm)		Min. Stacking Aisle Width (Reach Retracts)	128in (3250mm)	130in (3300mm)	
Width Across Forks	28in (710mm)			Min. Stacking Aisle Width (Reach Extends)	145in (3700mm)	150in (3800mm)	153.5in (3900mm)
Width Inside Straddle	19in (486mm)			Min. Turning Aisle Width	99in (2500mm)		102.4in (2600mm)
Mast Forward Distance	16.7in (424mm)	21in (534mm)	24.5in (623mm)	Ambient Temperature	-5°C ~ 40°C		
Positioning Method	3D SLAM-based			Ambient Humidity	20% ~ 95%		
Perception Method	3D Scanning-based			Ground Flatness	±0.12in/m <sup>2</sup> (±3mm/m <sup>2</sup> )		
Localization Precision	±0.39in/±0.5° (±10mm/±0.5°)			Max. Climbing Ability (Loaded/Empty)	10%, 10% (6°, 6°)		
Goods Pick-up Self-adaptability	±3.94in/±10° (±100mm/±10°)			Max. Gap Width	1.18in (30mm)		
Min. Turning Radius	67in (1695mm)	70.9in (1800mm)	75.4in (1915mm)	Max. Obstacle Height	0.39in (10mm)		
Load Center Distance	24in (600mm)			Front Safety Protection	Laser Scanner Protection + Anti-Collision Bumper		
Straight Forward Speed (Loaded/Empty)	4.47mph, 4.47mph (2.0m/s, 2.0m/s)			Rear Safety Protection	Laser Scanner Protection + Contact Sensor		
Straight Backward Speed (Loaded/Empty)	1.34mph, 1.34mph (0.6m/s, 0.6m/s)			Top Safety Protection	3D Laser Scanner Protection		
Forward Turning Speed (Loaded/Empty)	0.67mph, 1.34mph (0.3m/s, 0.6m/s)			Side Safety Protection	Laser Scanner Protection + Anti-Collision Bumper		
Backward Turning Speed (Loaded/Empty)	0.67mph, 1.34mph (0.3m/s, 0.6m/s)			Other Safety Protection	Emergency Stop Button + Acousto-Optic Alarm		
Lifting Up Speed (Loaded/Empty)	0.89mph, 1.48mph (400mm/s, 660mm/s)		0.72mph, 1.14mph (320mm/s, 510mm/s)	* 1.Performance Specifications: Specifications are based on the model equipped with a 225 in (5755 mm) triple telescopic mast, a 1219x1016mm load size, and with across forks on width.			
Lifting Down Speed (Loaded/Empty)	1.23mph, 1.01mph (550mm/s, 450mm/s)		1.23mph, 0.89mph (550mm/s, 400mm/s)	* 2.Load Capacity variation: Optional masts, attachments, longer load dimensions or higher lifting heights may result in a derating of capacity.			

# VNE20(VL)-07 COUNTERBALANCE TRUCK AGV/AMR

The Counterbalanced Forklift AGV/AMR, featuring 3D SLAM navigation and 3D laser adaptive sensing, ensures rapid project deployment and high forking repeatability. The vehicle is capable of driving at higher speeds and handling steeper routes. With customizable clamps, fork length, outer width, and outriggers, it offers exceptional flexibility and adaptability to various scenarios, particularly in semi-outdoor operations.

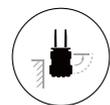

① **Notice:** Specifications are provided for reference only and may change as part of continuous product improvement.

# VNE20 (VL) -07 Fundamental Technical Parameters

Body Weight	7400lb (3350kg)	Type of Operation	Automatic / Manual Seated
Rated Load Capacity	4400lb (2000kg)	Battery Type	Lithium iron phosphate battery (LiFePO <sub>4</sub> )
Vehicle Dimensions	136x50x80in (3460x1250x2040mm)	Voltage/Capacity	48V/400Ah
Fork Dimensions	47x4x1.6in (1190x100x40mm)	Charging Mode	Manual/ Automatic Charging
Optional Fork Lengths	35/41/53/59/65/71in (890/1040/1340/1490/1640/1790mm)	Min. Stacking Aisle Width	148in (3760mm)
Fork Lifting Height	Up to 177in (4500mm)	Min. Turning Aisle Width	98in (2470mm)
Width Across Forks	17.7/39.4in (450/1000mm)	Ambient Temperature	-5°C ~ 40°C
Width Inside Straddle	9/31in (225/775mm)	Ambient Humidity	20% ~ 95%
Positioning Method	3D SLAM-based	Ground Flatness	±0.39in/m <sup>2</sup> (±5mm/m <sup>2</sup> )
Perception Method	3D Scanning-based	Max. Climbing Ability (Loaded/Empty)	13%, 15% (7°, 8.5°)
Localization Precision	±0.39in/±0.5° (±10mm/±0.5°)	Max. Gap Width	1.97in (50mm)
Goods Pick-up Self-adaptability	±3.94in/±10° (±100mm/±10°)	Max. Obstacle Height	1.18in (30mm)
Load Center Distance	20in (500mm)	Front Safety Protection	Laser Scanner Protection + Anti-Collision Bumper
Min. Turning Radius	73in (1835mm)	Rear Safety Protection	Laser Scanner Protection + Contact Sensor
Detecting height of the safety laser	5.7in (145mm)	Top Safety Protection	3D Laser Scanner Protection
Straight Forward Speed (Loaded/Empty)	6.04mph , 6.04mph (2.7m/s, 2.7m/s)	Side Safety Protection	Laser Scanner Protection + Anti-Collision Bumper
Straight Backward Speed (Loaded/Empty)	1.34mph , 1.34mph (0.6m/s, 0.6m/s)	Other Safety Protection	Emergency Stop Button + Acousto-Optic Alarm
Forward Turning Speed (Loaded/Empty)	2.24mph , 2.24mph (1.0m/s, 1.0m/s)	1.Performance Specifications: Specifications are based on the model equipped with a 118-inch (3000 mm) duplex mast, a 1219x1016mm load size, and with across forks on width. 2.Fork Accessories: Optional side shifter and Fork Positioner; Customizable fork length, fork width. 3.Optional Accessories: Battery Trolley, Cargo Overheight Detection, UWB Kit, Bar Code Scanner, RFID Reader, Dashcam, among others. 4.Load Capacity variation: Optional masts, attachments, longer load dimensions or higher lifting heights may result in a derating of capacity.	
Backward Turning Speed (Loaded/Empty)	1.34mph , 1.34mph (0.6m/s, 0.6m/s)		
Lifting Up Speed (Loaded/Empty)	0.58mph , 0.76mph (260mm/s, 340mm/s)		
Lifting Down Speed (Loaded/Empty)	0.67mph , 0.67mph (300mm/s, 300mm/s)		

# VNE SERIES COUNTERBALANCE TRUCK AGV/AMR

The Counterbalanced Forklift AGV/AMR, featuring 3D SLAM navigation and 3D laser adaptive sensing, ensures rapid project deployment and high forking repeatability.
